

Hide the action bar of a particular Activity

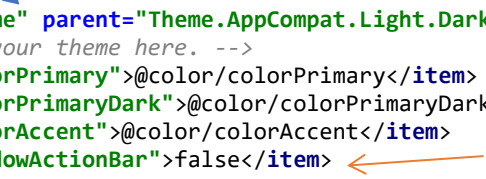

1) Option 1: in kotlin class

```
val actionBar = supportActionBar  
actionBar!!.hide()
```

2) By default, when your App runs

In the Manifest file: `android:theme="@style/AppTheme">`

In the src/styles.xml file

```
<style name="AppTheme" parent="Theme.AppCompat.Light.DarkActionBar">  
    <!-- Customize your theme here. -->  
    <item name="colorPrimary">@color/colorPrimary</item>  
    <item name="colorPrimaryDark">@color/colorPrimaryDark</item>  
    <item name="colorAccent">@color/colorAccent</item>  
    <item name="windowActionBar">false</item>  
</style>
```
